

NITRIC 45

Product Code: FB00105

Ω-NITRIC 45

Cip Acid Detergent-Descaler and Cleaner.

AIM

To provide a fast acting, high performance CIP acid detergent used to remove calcium scale and carbonate deposits in Dairy and processed food plant cleaning.

METHOD

This product should be used following a caustic wash with one of the Cyndan caustic based detergents, namely SINGLEX or SLEDGE.

This product should be used at concentrations ranging from 0.15% to 1.0% v/v at a temperature of 60°C to 80°C depending upon the degree of soiling and equipment run times. Normal circulation times are 15-30 minutes, equipment should be rinsed thoroughly with potable water prior to production.

RESULTS

A phosphate free economical acid for brightening a scale removal on stainless steel surfaces.

**FEATURES**

- Concentrated.
- Phosphorous Free.
- **NITRIC 45** is made in accordance with HACCP and GMP guidelines.

BENEFIT

- Provides economical scale removal.
- No phosphates in water courses.
- **NITRIC 45** is suitable for use in all Australian food manufacturing plants.

Packaging 20 L, 205 L, 1000 L.
