

## REGULATE

Product Code: FB00306

Σ-Q [P3] FOAM

# Sanitising Acid Detergent - Qac

## AIM

To provide scale removal and brightening of stainless steel surfaces in conjunction with sanitation via the inclusion of a quaternary ammonium sanitisers.

## METHOD

**REGULATE** Is a unique blend of phosphoric acid and QAC sanitiser that will brighten plant surfaces whilst being suitable as a final sanitising rinse.

**REGULATE** Should be used at 2% to 4.% concentration through a foam gun or can be manually applied using a bucket and scourer to remove built up calcium scale. **REGULATE** can also be used to remove rust stains from stainless steel at concentrations of 5% to 10%

## RESULTS

**REGULATE** Saves time by incorporating an acidic descaling process with a sanitiser.

**REGULATE** is ideal as an alternating clean or following foam cleaning with chlorinated caustic detergents. Test results show a 99.9% kill against known spoilage bacteria when used as a soak, manual or foam detergent.

## FEATURES

- Cleans / brightens and sanitises.
- Foam or soak application.
- **REGULATE** is made in accordance with HACCP and GMP guidelines.

## BENEFIT

- Saves time and money.
- Minimises number of products.
- **REGULATE** is suitable for use in all Australian food manufacturing plants.

Packaging 20 L, 205 L, 1000 L.
