

DELTA FORCE

Product Code: FB00401

 **[4s]**_{FOAM}

Foaming Hard Surface Cleaner

AIM

To provide a high performance, metal safe, product to remove fats, oils and proteins from food industry plant and equipment without the need for chlorine. **DELTA FORCE** Contains A sophisticated surfactant system along with calcium dissolving sequesterants to provide an all round clean.

METHOD

This product can be applied using a foaming gun,¹ by soak cleaning or as a manual detergent. It's safe to use on aluminium and other soft metals.

This product should be used at a dilution of 2%-5% v/v when using a trolley foamer, Hydrofoamer or centralised foaming system. It is recommended that the product be foamed onto pre-rinsed surfaces and have a dwell time on the surface of 5-10 minutes and then rinsed off with potable water. Heavily soiled areas will require some mechanical action through hand scrubbing or a pressure washer.

RESULTS

As a foam detergent, **DELTA FORCE** provides results equivalent to chlorinated caustic detergents without the risk of damage to plant and equipment. Because it is powerful yet safe **DELTA FORCE** can replace GP detergents, degreasers and heavy duty foam cleaners.

FEATURES

- Concentrated, multi- purpose.
- Soft Metal Safe.
- **DELTA FORCE** is made in accordance with HACCP and GMP guidelines.

BENEFIT

- A very economical product replaces multiple products.
- Can be used on aluminium and galvanised surfaces.
- **DELTA FORCE** is suitable for use in all Australian food manufacturing plants.

Packaging 20 L, 205 L, 1000 L.
