

Pristine

Chlorinated Dishwashing Detergent

Pristine is a chlorinated automatic dishwashing detergent that sanitises and brightens to a sparkle finish.

The product efficiently removes soils and stains from stainless steel and glassware. It contains a **built-in rinse additive** that provides good wetting and excellent rinsability contributing to quick, sure, regular cleaning.

Pristine contains a high level of sequestrant which ensures excellent performance in hard water areas and eliminates the possibility of scale formation within the washing machine.

Pristine will leave a sparkling clean finish on even the most heavily soiled utensils, pots and dishes.

Ideal for:

- All automatic dishwashing requirements.

Features:

- Better machine performance.
- Excellent rinsability.
- Perfect combination of better detergency, removal of ingrained surface films, destaining and good rinsability ensures the best possible results.
- Sanitises and brightens.
