

# BREAK UP

- ✓ Heavy Duty
- ✓ Quick break degreaser
- ✓ A natural renewable resource
- ✓ Non toxic

## POWERFUL DEGREASER

Cyndan **Break Up** is a powerful, non toxic, citrus based degreaser. It readily penetrates and dissolves asphalt, ink, tar, wax, grease gum, rubber and adhesives.

Suitable for all industries. Cyndan **Break Up** is a quick break solvent and is therefore suitable to be used in situations where plate grease separations are used.

The high percentage of the active ingredients is limonene. Limonene is a naturally sourced solvent derived from citrus fruits. The most outstanding benefit of the limonene active, apart from providing remarkable results, is that it eliminates the need for acids, caustics and chlorinated solvents, making **Break Up** a much safer alternative.

Suitable for use in AQIS inspected meat and food processing plants category 3 General Cleaner Type C

## SIZE:

1L, 5L, 25L, 205L

## IDEAL FOR:

- Tar
- Glue
- Asphalt
- Grease
- Oil
- Ink
- Wax
