

CITRAEROSOL

- ✓ Non Flammable
- ✓ Non Conducting
- ✓ Non Residual
- ✓ Rapid evaporating
- ✓ Won't ignite near electrical sparks
- ✓ Safe for use on electrical components
- ✓ No shorting or damage of circuitry

CONTACT PRECISION SOLVENT

Cyndan Citraerosol is a rapid evaporating aerosol solvent for contact cleaning and degreasing of precision and electrical components.

Citraerosol is non-flammable, non-conducting and leaves no residue.

Citraerosol can be used to clean braking equipment and for degreasing small motors especially if these contain electrical components. Due to its non-residual degreasing formula, it is also useful for surface preparation prior to patching or application of adhesive.

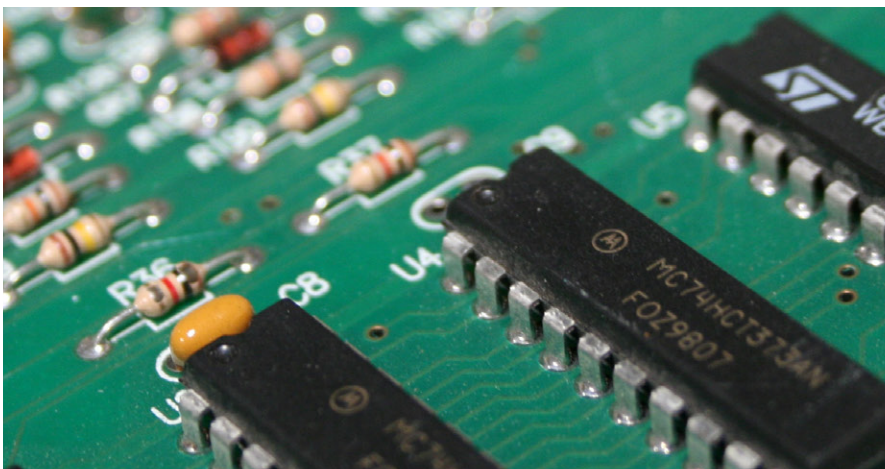

A must for all electrical & telecommunication maintenance personnel, electricians and electrical mechanics.

SIZE:

1L, 5L, 25L, 205L

IDEAL FOR:

- Fuse boxes
- Transformers
- Substation Relays
- Powerboards
- Contacts on motors
- Circuits
- Cables
- Switches
- Small engines
