

- ✓ D-limonene based natural solvent solution
- ✓ Cleans brake assemblies and parts, increasing brake efficiency
- ✓ Removes stickers, glue residues and adhesives
- ✓ Leaves no residue

DUAL ACTION, D'LIMONENE BASED, NATURALLY DERIVED SOLVENT SOLUTION

Cyndan D'Solve is a D'limonene based natural solvent solution, designed to dissolve and remove most glues and adhesives, along with grease, oil, brake fluid and road dirt and grime.

D'Solve not only cleans brake assemblies and parts, it increases their efficiency by drying out linings, drums and pads. The chemical dissolving action removes grease, brake dust, oil, brake fluid residues and road dirt and grime. D'Solve works instantly with controlled evaporation leaving no residue. This aids in the reduction of brake squeal.

SIZE:

5L, 25L, 205L, 1000L

REMOVES AND DISSOLVES:

- Glues
- Adhesives
- Grease
- Oil
- Brake fluid
- Road dirt and grime

Directions

- For use as a **Quick Break Degreaser**: spray or brush D'Solve onto the surface to be cleaned, allow to penetrate soiled area and rinse off with hot or cold water.
- For use as an **Electrical Solvent**: spray or brush area to be cleaned and allow to air dry, a low pressure air hose may be used to assist drying. Do not start electrical equipment until Cyndan D'Solve has evaporated.
