- ✓ Each recyclable wick lasts up to 8 weeks before it needs replacing

## PERFUME IMPREGNATED WICK FOR DOME AIR SANITIZER

The Cyndan **Dome Wick** is a perfume impregnated refill wick for the Cyndan **Dome Air Sanitizer**, an air sanitizer/deodorizer unit developed to effectively control unpleasant odours in commercial areas.

The Cyndan **Dome Wicks** are available in eucalyptus, honeysuckle, lemon, powder puff and vanilla fragrance to provide a sweet smelling environment for staff, customers and visitors alike.

## DOME AIR SANITIZER

The Cyndan **Dome Air Sanitizer Unit** has been developed to effectively control unpleasant odours in commercial areas. The Dome Air Sanitiser is designed to hold the individual wicks which are then replaced every 6-8 weeks depending on air flow. The unique design of the chrome dome allows for efficient flow of air through the dome providing the best possible results without any environmental impacts.

The dome does not require electricity or batteries. It is noiseless and does not emit CFC's. It provides a continual natural fragrance and is resistant to vandalism. Due to its simplicity, it is great for use in kitchens, cellars, locker rooms, garbage rooms, public toilets and any other environment requiring effective and environmentally friendly odour control.

## SIZE:

Box of 24
