

- ✓ Oil of Pine based
- ✓ Odour neutralising agent
- ✓ Solvent cleaner, degreaser and deodoriser

PINE OIL CLEANER AND ODOUR NEUTRALISER

Probably no other product is so universally associated with freshness and cleanliness as is Oil of Pine. The slow evaporation rate of Oil of Pine ensures that the odour of pine is not dissipated too rapidly, thus providing a lasting residual odour to neutralise foul and unwanted smells.

It may be used as an odour neutralising agent or as a solvent cleaner. EnviroSolve has unlimited uses because of its multifunctional abilities to clean, de-grease and deodorise.

SIZE:

5L, 15L, 25L, 205L, 1000L

USE IN:

- Sewage lift stations
- Garbage receptacle containers and transport vehicles
- Industries where glues, resins adhesives and inks are used
- Storage of paint brushes and equipment
- Rubber processing and reclaiming industry
