

# GRAFFITI STRIPPER

- ✓ Removes spray paint, markers, inks & crayons
- ✓ Fast acting
- ✓ Biodegradable
- ✓ Spray on - Rinse off
- ✓ Does not remove painted surface beneath

## GRAFFITI REMOVER

Cyndan **Graffiti Stripper** is a strong, fast acting, biodegradable liquid graffiti remover for use on exterior and interior surfaces.

Effective in the removal of spray paint, markers, inks, crayon and more from bricks, concrete, bins, street signs, painted masonry, post boxes, slate, marble, granite, stucco, terracotta, timber, fences, glass and many other surfaces.

Simply spray on and rinse off with water. **Graffiti Stripper** safely penetrates the surface to remove the contaminant. It will not remove the painted substrate. **Graffiti Stripper** may be rinsed with a pressured water sprayer eliminating need for a water source.

**Note** that graffiti becomes harder to remove the longer it is left to cure. It is recommend to apply **Graffiti Stripper** as soon as possible to remove the markings, preferably within 48 hours of the attack for easier and more effective removal.
