

JAL TERG OXYGENATED

Antibacterial Laundry Detergent Powder

PRODUCT INFORMATION SHEET

DESCRIPTION:

JAL TERG OXYGENATED Laundry Detergent Powder is a high quality, biodegradable laundry detergent powder for use in automatic and wringer type machines. It has been specially formulated as a low foam product to make it suitable for use in front loading machines. It contains active oxygen to remove stains, kill germs and brighten both whites and colours in both hot and cold water.

JAL TERG OXYGENATED contains the **PERACTIVE SYSTEM**, alkaline builders and water softeners to allow easy machine scrubbing. It contains a lemon perfume to leave clothes with a fragrant freshness.

The **PERACTIVE SYSTEM**, a combination of a per-salt with the activator, delivers highly reactive per-acetic acid in the washing liquor even at temperatures of 20°C, as well as free hydrogen peroxide depending on the excess of per-salt. The combination of both oxidizing agents guarantees the best possible bleaching result on a large number of stubborn stains and at the same time a hygienically clean wash. The overall washing result is influenced positively, colours and fibres are protected and the overall quality of the laundry is enhanced. Washing at boiling point is not necessary, since a comparable result is already obtained at 40 and 60°C saving energy and costs.

JAL TERG OXYGENATED can be used in both hard and soft water.

FEATURES AND BENEFITS:

- Biodegradable
- Contains active oxygen to kill germs and bleach stains
- Colour Safe
- Low foaming
- Brightens whites and coloureds
- Contains built-in water softener and can be used in both hard and soft water.
- Effective in both hot and cold water

TECHNICAL INFORMATION:

Appearance	White Free Flowing powder with blue specks
Odour	Lemon
pH	Approx. 11.3 (10% aqueous solution)
Specific Gravity	Not Available
Solubility in Water	Dissolves completely.

USE:

For industrial use only.

Ensure **JAL TERG OXYGENATED** is fully dissolved before adding articles to be laundered.

Use ½ – 1 cup per 5 kg of items to be laundered.

Use warm or hot water to activate the available oxygen. **DO NOT** overload machine.

Always ensure clothing is well rinsed in potable water after washing

As with all laundry products wash your hands and dry thoroughly after using.

SAFETY: Causes skin irritation. Causes serious eye damage.

Keep out of reach of children. Read label before use. Wash hands, face and all exposed skin thoroughly after handling. Avoid release to the environment. Wear protective clothing, gloves, eye/face protection and suitable respirator.
