EMULSIFIABLE CUTTING OIL AND LUBRICANT

Cyndan **Lube & Cool** is a stable, emulsifiable cutting oil, boosted with excellent lubricating and anti-corrosion additives. Suitable in all drilling, milling, turning, boring, cold sawing, grinding, tapping, threading, lathing and broaching operations on all common metals.

Lube & Cool promotes long tool life and provides excellent surface finish.

Lube & Cool is a non-phenolic cutting oil dilutable with up to 50 parts of water offering a hygiene advantage preventing the product from going rancid. It has a low odour and it's superior formula offers less aggravation to cuts and abrasions as is normally experienced with other lubricants.

Using **Lube & Cool** displays a visible difference to the finished product.

SIZE:

1L, 5L, 25L, 205L
