

SILICONE REMOVER

- ✓ Highly effective cleaning solvent
- ✓ Dissolves and removes silicone sealant easily

CLEANING SOLVENT USED FOR REMOVING AND DISSOLVING SILICONE SEALANT

Cyndan Silicone Remover is a highly effective cleaning solvent used to remove silicone from all types of glass, metal, tile, wood or masonry surfaces. Ideal for construction final clean jobs.

For jobs involving the replacement of mouldy silicone, it is recommended to initially cut into the old silicone before applying the Silicone Remover to speed up the process and to ensure best results are achieved.

If mould is still evident after reapplying the silicone, the use of **Cyndan Algae Died B** to treat the affected area is recommended to completely eradicate all traces of mould and algae.

SIZE:

5L, 15L, 25L, 205L, 1000L

USE ON:

- Glass
- Metal
- Tile
- Wood surface
- Masonry
