

SIZZLA

- ✓ Fast-working concrete, cement, mortar and limescale remover
- ✓ Non corrosive
- ✓ 100% Biodegradable
- ✓ Safety compliant
- ✓ Cost effective
- ✓ Easy to use

HEAVY DUTY CONCRETE BUILDUP REMOVER

Cyndan Sizzla is a water based cleaning compound formulated to safely and effortlessly remove hardened concrete, cement, mortar and limescale deposits from tools, vehicles, construction equipment, windows and glass and many other surfaces.

It can be applied by foaming or spraying onto the surface, or as a liquid to soak hand tools and forms.

Cyndan Sizzla is environmentally friendly and can safely be used for on-site applications where containment measures are not available. It does not contain any muriatic, phosphoric or hydrochloric acids.

Its non corrosive formulation means that even sensitive engine parts can be cleaned without causing any damage, keeping vehicles and equipment looking new.

Application

1. Apply Cyndan Sizzla by foaming or spraying onto the surface.
2. The foam sticks to the concrete and dissolves it.
3. After 15 minutes, the foam has turned the concrete to a paste, so that it can be easily removed with water.

Some agitation and repeat application may be required on tough areas.

SIZE:

5L, 15L, 25L, 205L, 1000L

CLEANS OFF:

- Concrete
- Cement
- Mortar
- Stucco
- Grout
- Limescale

SAFE ON ALL SURFACES:

- Metal
- Aluminium
- Glass
- Chrome
- Plastics, etc.
