

SQUEAKY CLEAN LIQUID

- ✓ High foaming liquid concentrate
- ✓ Excellent for hand washing
- ✓ Eco friendly
- ✓ Non toxic
- ✓ Will not damage crockery glaze or finishes on cutlery

COMMERCIAL GRADE LIQUID DISHWASHING CONCENTRATE

All detergents are not alike. Cyndan Squeaky Clean Liquid stands alone when it comes to quality of detergency and eco-compatibility. This formulation is non toxic, phosphate free and ph neutral.

Enhanced with modified coconut extracts

Our high concentration formulation gives superior results by instantly dissolving and emulsifying grease, oils and food residues. The **Squeaky Clean** formula is bolstered with modified coconut extracts which enhance the billowing suds for better results. Although a powerful grease cutter, **Squeaky Clean Liquid** will not damage crockery glaze or finishes on cutlery.

Squeaky Clean Liquid can be diluted with two parts water, resulting in ready to use economical detergent. According to Australian standards, detergents should contain no less than 6% by mass of surfactants. Squeaky Clean liquid is 4.7 times stronger with 28% active surfactants.

Botanical extracts

Squeaky Clean Liquid is delicately fragranced with naturally distilled plant oil extracts. This aids in the deodorizing of cleaned equipment.
