TYRE CLEANING SOLUTIONS - HIGH QUALITY TYRE DRESSING AND SHINING

Three premium Cyndan tyre solutions to enable longer protection and enhance your tyre appearance.

SIZE:

5L, 15L, 25L, 205L, 1000L

TYRE GLOSS - Silicone Based Tyre Shine

Cyndan Tyre Gloss is a silicone based tyre cleaner designed to make tyres literally shine when applied, bringing out the surface colour to an 'as new' condition.

This superior silicone rejuvenator and sealer formulation provides an outstanding 'wet look' appearance, and delivers a long lasting finish.

HIGH SHEEN TYRE GLOSS - Solvent Based Tyre Shine

Cyndan High Sheen Tyre Gloss is a solvent based tyre cleaner designed to give you the better shine of the three products.

For heavily caked on dirt and muck built up on tyres **High Sheen Tyre Gloss** is the most effective tyre cleaner available.

TYRE BLACK (ECONO 1101) - Non Silicone Based Tyre Gloss

Cyndan Tyre Black (Econo 1101) is an economical non silicone glycerine based solution designed to provide a deep black appearance on tyres after drying.

Its non silicone formulation retards dust and dirt pick up, enhancing the luster without being slippery or greasy, and providing a classic finished look.

Recommended for use in the panel repair industry, where the use of silicone based product causes problems.
