## 4. FIRST AID MEASURES

If poisoning occurs, contact a doctor or Poisons Information Centre (Phone Australia 131 126, New Zealand 0800 764 766).

**Inhalation:** Remove patient from contaminated area, avoiding becoming a casualty yourself, and place the patient on their left side to allow them to breathe easily and to minimise the chance of blockages in their airways. Remove any prostheses or objects in the mouth to reduce choking hazards. Contact a POISON CENTER, hospital or doctor if there is ongoing respiratory distress, difficulty breathing, or the patient stops breathing.

**Skin Contact:** Wash the affected area with excess water, under a safety shower if available, and remove any contaminated clothing including footwear. Continue flushing the area for at least 15min, or until advised to stop by the POISON CENTER. If skin irritation is observed, transport the patient to seek medical advice.

**Eye contact:** If in the eyes, flush with excess water. Pull back eyelids to ensure complete flushing of the eye and removal of the product. Continue flushing for at least 15min or until advised by the POISON CENTER to stop. If significant or ongoing eye irritation is observed, transport the patient to a hospital or doctor for further treatment.
