## Wasp Eliminator

Removing Wasps from Essential Energy Power Boxes

## ISSUE

Essential Energy linesmen who attend to electricity related repairs will often come across wasps that love nothing more than setting up home in a Power Box. Preventing wasp stings for these workers is a critical WH&S requirement so Essential Energy requires a product that won't let them down at the most critical of times.

## ACTION

**Cyndan Wasp Eliminator** is one of the most powerful solutions in the marketplace and is the product of choice for Essential Energy personnel in the field. It has an accurate vortex nozzle that enables linesmen to hit their target from up to 7m safe spraying distance away from the wasps. Its high dielectric strength of 54.5KV means Cyndan Wasp Eliminator gets the job done instantly.

# WASP ELIMINATOR Essential Energy

## ACTION

The Wasp Eliminator propellant is most importantly non-flammable. This means that the product is safer to use around electrical equipment such as power poles and electrical boxes.

Cyndan Wasp Eliminator is approved and registered by the A.P.V.M.A. (Australian Pesticide & Veterinary Medicines Authority) and comes in an economical 500gm aerosol can.
