

Soy Safe All-Stone Graffiti Remover Gel®

Finally, a breakthrough in graffiti remover without putting people and the environment at risk.

Tough on graffiti, gentle on the environment.

The safest graffiti remover available today. Fully developed and manufactured in Australia using the latest revolutionary, patent pending, soy solvent technology. It's safe for people and the environment.

Completely Safe Graffiti Removal

Formulated using a gel technology that allows the product to cling to vertical surfaces to enhance performance, minimize run-off and wastage, limiting flash-off and easy capture of waste.

Developed for the safe, effective and powerful removal of graffiti paints, markers, inks etc. from a wide range of surfaces including but not limited to: brick, concrete, natural stone, tiles, ferrous and non-ferrous metals, timbers etc.

Safe & Effective

Replacing traditional toxic chemicals, this product contains no highly flammable, toxic or petroleum hydrocarbon solvents, or corrosive chemicals. It contains no hazardous air pollutants, no ozone-depleting chemicals, no known carcinogens, reproductive toxins or other human health hazards.

It is ready to use, non-toxic, VOC compliant and readily biodegradable.

When applied, the paint will be removed from the surface and be absorbed into the gel making the graffiti removal safe, simple and effective.

Product Benefits

- ✓ Non hazardous
- ✓ Non-toxic
- ✓ Non-irritant
- ✓ User friendly
- ✓ Readily biodegradable
- ✓ Non-flammable
- ✓ VOC compliant
- ✓ Low odour
- ✓ Gel formula for use on vertical surfaces
- ✓ Multi-purpose - effective against all types of paints & permanent markers
- ✓ Water wash off – permits easy removal
- ✓ Made from natural renewable resources
