

Soy Safe All-Stone Aerosol Graffiti Remover®

A Worlds First — A commercial grade graffiti remover used by professionals. In a can for the do it yourself (DIY) market.

GuardIt Soy Safe All-Stone Gel Graffiti Remover® in an Aerosol can is the most innovative step forward in the industry. Not only because of the use of a Soy based graffiti remover, but also the use of Nitrogen as a propellant eliminating CO2 emissions and is 100% recyclable.

Safe for people and the environment

Replacing traditional toxic chemicals, this product contains no highly flammable, toxic or petroleum hydrocarbon solvents, or corrosive chemicals. It contains no hazardous air pollutants, no ozone-depleting chemicals, no known carcinogens, reproductive toxins or other human health hazards.

It's a ready to use, non-toxic, VOC compliant, readily biodegradable, recyclable product specifically designed to remove the most difficult marks and stains from many surfaces.

Soy-based

The GuardIt Soy Safe "All Stone" Aerosol Graffiti Remover Gel® is a soy-based graffiti remover, formulated using a gel technology that allows the product to cling to vertical surfaces to enhance the performance and minimize run-off.

When applied, the paint will be removed from the surface and be absorbed into the gel consistency, making the graffiti removal safe, simple and effective

Graffiti Removal

Developed for the safe, effective and powerful removal of graffiti paint, markers, ink etc. from all types of porous masonry surfaces including brick, cement, concrete, stone and tiles.
