

Clean, disinfect and protect your surfaces

SIQURA™ Surface Disinfectant & Protectant Wipes are a simple and effective way to kill bacteria and protect surfaces for up to 30 days (unless heavy abrasion occurs). The wipes eliminate odour-causing bacteria and inhibit the growth of mould and mildew. As the surface dries, the innovative QuatLock™ technology will coat the surface with a microscopic protective layer for continuous defense against germs. SIQURA™ Wipes are ideal for use around children, pets and plants.

Many disinfectant products evaporate within a short period of time, leaving surfaces vulnerable to recontamination. **SIQURA™ Surface Disinfectant & Protectant Wipes** offer a three-in-one solution. They **clean, disinfect** and create a **self-sanitising** surface that continues to provide defence against bacterial attack.

up to 30 days continuous protection

kills 99.99% bacteria

inhibits mould & odour

bonds to most surfaces

How to use SIQURA™ Surface Disinfectant & Protectant Wipes

- 

Wipe the entire surface using an 'S' pattern cleaning off visible debris and making sure it has been completely covered. If surface has been contaminated with a lot of debris or spillages you may need to 'clean' with one wipe and use a second wipe to ensure the surface has been fully covered. Do not mix with detergents or other chemicals.
- 

Allow surfaces to air-dry. It's important that you don't wipe dry as this will remove the antimicrobial shield before it's had a chance to bond. Surfaces will be protected for up to 30 days unless visibly soiled or if heavy abrasion occurs.

How friendly are SIQURA™ Wipes?

Rather than poisoning microbes, **SIQURA™ Wipes** use a small electrostatic charge to kill microorganisms, making them suitable for use in childcare, education, commercial and domestic environments. They can be used on a wide range of surfaces and high touch areas including counters, door handles, bathrooms, floors, furniture and seating. Rapidly degrading, the solution in **SIQURA™ Wipes** breaks down to form simple organic compounds — reducing the potential for negative environmental impacts.

- ✓ Solvent-free
- ✓ No chlorines
- ✓ No bleaches
- ✓ No carcinogenic compounds
- ✓ Non-oxidative
- ✓ Non-flammable
- ✓ Bio-friendly

Kitchens

Bathrooms

Offices

Vehicles

Trolleys

Ideal for use within:

Hospitality: Restaurants & Cafes
Education: Childcare, Schools, Universities
Public Transport: Buses, Trains, Trams
Retail Spaces: Counters, Touchpoints
Lifestyle Environments: Gyms & Fitness
Homes: Furniture, Floors, Fixtures
Vehicles: Cars, Vans, Trucks

How durable is it?

SIQURA™ Wipes use Quatlock™ technology to bond the active antimicrobial to most surfaces for long-lasting defence. For more information on the science behind SIQURA, please visit siqura.com.au.

How is it available?

CODE	DESCRIPTION	PACK
O-1320	80 Wipes Canister	12
O-1337	Single Sachets	50
